A little spark.
A shared journey.

TipsToTrip

Company brand kit

An identity built around travel ideas, real connections and the joy of discovering a place together.

Good tips. Great company.

Proposed brand line: a simple connection between useful travel ideas and the people you share them with.

Our purpose

Help people discover places and connect through travel.

THE BRAND IN FOUR WORDS

Warm. Curious. Helpful. Connected.

01 / DISCOVER

Spark curiosity

Useful tips and local experiences that invite people to explore.

02 / CONNECT

Make room

A welcoming voice for travelers, local communities and businesses.

03 / SHARE

Pass it on

Encourage people to share a tip, a plan or a moment from the journey.

Give the logo room to breathe.

The supplied full-color artwork is the primary logo. Retain its lettering, texture, colors and white background.

Original square canvas = 1x

Clear space

Keep an additional 12.5% of the square canvas width free on every side. A 320 px logo needs 40 px of external space.

Recommended minimum

Use the full artwork at 192 px wide or larger on screen, or 48 mm in print. Check the internal lettering at final size.

Use a white holding tile

On color or photography, place the original square on white. Do not stretch, crop, recolor, rotate, add effects or separate its symbols.

Raster source: 1024 x 1024 px. No vector master supplied.

A palette with a sense of adventure.

Turquoise and Deep Teal retain the existing app colors. Supporting colors translate the supplied logo into a practical system.

CMYK values are approximate starting points. Use an ICC workflow and a printer proof for production.

Make every word easy to read.

Calculated contrast for these exact color pairs. Use at least 4.5:1 for normal text and 3:1 for large text.

Explore together	White on Deep Teal Primary buttons / dark panels	4.74:1	NORMAL TEXT
Explore together	Ink on Mist Body text / soft cards	12.09:1	NORMAL TEXT
Explore together	Ink on Sunshine Highlight labels	8.93:1	NORMAL TEXT
Explore together	White on Turquoise Avoid for text at every size	2.84:1	AVOID FOR TEXT
Explore together	Ink on Coral Large bold display text only	4.11:1	LARGE ONLY
Explore together	White on Violet Secondary labels	4.76:1	NORMAL TEXT

Large text means 24 CSS px regular or about 18.7 px bold. Turquoise works best as an accent. Use Deep Teal for buttons with white labels. Pair status colors with text or icons.

Friendly headlines. Clear details.

Nunito carries the app's approachable personality. Inter supports readable body copy and company communication.

Keep headings in sentence case. Avoid wide letter spacing and all-caps paragraphs.

Inter

Body / Regular 400 and SemiBold 600

A useful tip can open up a whole new side of a place. Share what you know, find people on a similar journey, and make room for a little discovery.

Section heading	32-40 / 1.2 px
Body	16-18 / 1.5 px
Label	12-14 / 1.3 px

Follow the curve. Find the spark.

A rounded route, a destination pin and a small spark extend the logo's story into a flexible graphic language.

SHAPES

Soft and open

Rounded cards, generous space and smooth routes. Use an 8 px spacing rhythm.

IMAGERY

People in places

Use natural light, candid moments and local detail. Obtain rights and consent.

COMPOSITION

One clear idea

Lead with a short headline. Keep accents small. Leave faces and text unobstructed.

The new graphic elements are supporting artwork. They are not replacement logos or extracted logo symbols.

Sound like a helpful travel friend.

Be warm, specific and curious. Invite people to join in, and keep the next step clear.

USE THIS KIND OF LANGUAGE

A little local knowledge goes a long way.

Found a spot you loved? Share a tip for the next traveler.

KEEP THE PROMISE REAL

Describe what people can do. Avoid guarantees about matches, instant availability or personal safety.

Short bio

Your social travel companion. Discover local ideas, connect with travelers and share the journey.
